EDUCATION

Vellore Institute of Technology

Sep 2023 - present

B.Tech, Computer Science and Engineering (Artificial Intelligence & Machine Learning)

CGPA: 7.96/10

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Machine Learning, Artificial Intelligence, Neural Networks, Statistics, Operating Systems, Computer Networks, Cloud Computing

TECHNICAL SKILLS

Programming: Python, Java

AI / Machine Learning: Machine Learning fundamentals, NLP fundamentals, model experimentation

Development / Backend: Flask, REST APIs, HTML, CSS, JavaScript

AI / Cloud / Data: TypeScript, Gemini, Google AI Studio, Google Cloud, Gmail API, MCP, Supabase

Databases & Tools: MySQL, Git, GitHub, AWS

Testing / Security: Web application testing, bug identification, browser Developer Tools, Metasploit

Systems & Networking: Linux administration, system administration, networking fundamentals

EXPERIENCE

RHCSA Training & Linux System Administration | ITE India

Jul 2025 – Sep 2025

- Administered Red Hat Enterprise Linux systems in a hands-on lab environment: managed users and groups, configured ownership and permissions, worked with systemd services, and performed basic filesystem and storage management using standard Linux utilities.
- Performed hands-on operations using Kali Linux security tools for basic network reconnaissance, traffic analysis, vulnerability assessment, and security testing in a controlled lab environment.

PROJECTS

PlacementAI — AI-Powered Placement Opportunity Platform | Live | Currently Working |

- Building a live AI-powered platform that automatically extracts, classifies, and organizes university and placement-related emails into a centralized opportunity dashboard.
- Implemented automated information extraction, opportunity tracking, deadline and eligibility detection, and email deduplication using Gemini, Gmail API, MCP, Google Cloud, and Supabase.

Mausam Vaani — AI-Powered Hyperlocal Weather Platform | Python, Flask, MySQL | GitHub

- Built a hyperlocal forecasting platform that combines live IMD API data with IoT sensor readings to predict rainfall, temperature, humidity, and wind speed for a specific location rather than an entire region.
- Developed a Decision Support System that turns forecasts into plain-language, actionable guidance for farmers, served through a Flask/MySQL backend and an HTML/CSS/JavaScript dashboard.

CiteKnight — AI-Based Wikipedia Citation Verification Extension | JavaScript, Python, NLP | Devfolio

- Built a Chrome extension that scans Wikipedia articles with NLP techniques to flag sentences that likely need a citation or rely on weak citation support.
- Added a points-based contribution system to reward editors who fix flagged citations; won 1st place in the Wikimedia track at HackByte 3.0, IIITDM Jabalpur.

CERTIFICATIONS

- | | |
|---|----------|
| Microsoft Certified: Azure Data Fundamentals (DP-900) | Jun 2025 |
| Applied Machine Learning in Python — University of Michigan, Coursera | Dec 2025 |
| Networking Basics — Cisco | May 2024 |

EXTRACURRICULAR

- Core Member, OWASP Club, VIT Bhopal.
- Active in community activities; NSS volunteer; NCC “A” Certificate holder.

ACHIEVEMENTS

- 1st Place — Wikimedia Track, HackByte 3.0, IIITDM Jabalpur.
- Represented Madhya Pradesh at Softball Nationals (Cricket category), Jaunpur — Batsman.
- Maintained a 450+ day continuous Spanish-learning streak on Duolingo.
